

## NON-PROFIT ORGANISATION IN MIZORAM

We are non-profit organization dedicated to empowering underprivileged communities through education and poverty alleviation. Founded in 2020, our mission is to provide support and resources to those in need, helping to break the cycle of poverty and unlock the potential of individuals and communities.

### Know About Our Organisation

## ABOUT US

Zo Inspiration Foundation is a non-profit organization registered under the Firms & Societies Act. During the COVID-19 pandemic, on June 7, 2020, under the leadership of Mr. Emmanuel Thangrosanga of Ramhlun North, we began our work in helping the needy.

At present, we have 9 members on the Board of Directors, 11 members in the Executive Committee, and also 10 advisers.

### VISION

We aim to do our utmost to help the poor, the homeless, those without proper food, and children who lack access to good education, so that they may have better homes, food, and education.

Our goal is not only to meet their immediate needs, but also to open pathways for meaningful change and positive progress in their lives.

### MISSION

We strive to be a channel of blessing for the less fortunate, and we do our best to support widows and orphans so they can live stable and secure lives. We also aim to help children from disadvantaged backgrounds receive good education and have a brighter future. Furthermore, we seek to inspire and motivate others to take part in helping those in need.

## Our Programs

### Charity Program

This is our main initiative and also our primary source of funding. Those who come to us for assistance are first assessed by preparing a "Beneficiaries Profile," after which we raise support for them from the public. Fundraising is usually carried out twice a month. In addition, we also have a number of regular donors who contribute on a monthly basis.

### Free Education Program

This program was launched at the beginning of 2024 and is aimed at orphans and children of widows under the age of 10. In addition, children from particularly disadvantaged backgrounds are also supported under this program.

Under this initiative, in 2025, we are currently supporting 48 children across different towns in Mizoram. At the beginning of the year, they were all provided with school uniforms, school bags, notebooks, and pencils. Additionally, their monthly school fees are paid directly to their respective schools every month.

### Shelter of Love Program

This program focuses on building homes for people in need using donated funds. Since its inception, 19 houses have been constructed for beneficiaries such as widows and the homeless. The work is carried out in collaboration with local organizations, village councils, NGOs, and volunteers.

The foundation also assists in securing land for beneficiaries when needed. Each house is built with standard materials and design to ensure durability and comfort, with additional features adapted based on location, such as fireplaces in village homes.

### ZIF Health Program

The ZIF Health Program (ZHP) is a strategic initiative by Zo Inspiration Foundation, launched in April 2026 to provide comprehensive medical support to our beneficiaries. The program is dedicated to enhancing the health and well-being of both individuals and the wider community through targeted healthcare projects and interventions. By bridging gaps in medical accessibility, ZHP seeks to foster a healthier society, ensuring that quality care and health education are within reach for those who need it most. Our efforts are driven by a commitment to compassionate service and sustainable health outcomes.

### Christmas Charity Program

Ever since the foundation was established in 2020, it has been our annual tradition to host a Christmas Charity Program at the end of each year. During this time, we visit families facing financial hardship and extend our support - whether through monetary aid or gifts in kind - so they can experience the joy of the festive season without added stress or emotional burden.

### Lighthouse Initiative Program

This initiative helps financially struggling families build sustainable livelihoods, prioritizing widows, orphans, and vulnerable households. Support includes funding and resources for small businesses, tailoring, transport services, pig rearing, and poultry farming. While some beneficiaries faced challenges, most have benefited from the program, which has generally been successful and will continue into 2025-2026.

### Initial Support Program

This program aims to provide more effective and sustainable support despite the high number of assistance requests. After careful assessment, aid is given based on individual needs, either in cash or in kind, sometimes through local organizations. Support may include essential items, small financial help, or covering medical expenses, with a focus on ensuring assistance is used responsibly.

*"Alone we can do so little;  
together we can do  
so much."  
- Hellen Keller*
